DETAILED ACTION

1. This action is in response to the appeal brief filed on 10/1/2010.

Appeal

2. In view of the Appeal Brief filed on 10/01/2010, PROSECUTION IS HEREBY REOPENED. An office action is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Katherine Vieyra, Reg. No. 47,1559 on January 10, 2011.

The application has been amended as follows:

In claim 10, line 12, "the reception quality, and" has been replaced with --the reception quality;--.

In claim 10, line 15, "the reception quality." has been replaced with --the reception quality; and--.

In claim 10, line 16, --transmitting information from the transmission antenna with an assigned spread code selected from the spread codes assigned to the transmission antenna.-- has been added.

In claim 16, line 18, "control information." has been replaced with --control information, and--.

In claim 16, line 19, --the transmitter transmits information from the transmission antenna corresponding to the concerned reception quality and transmits the information with an assigned spread code selected from the spread codes assigned to the transmission antenna.-- has been added.

Allowable Subject Matter

4. Claims 2-17 are allowed over the prior art

The following is an examiner's statement of reasons for the indication of allowable subject matter:

In the Examiner's opinion, the prior art of record either singularly or in proper combination fails to teach the limitations as recited within the independent claims of the application.

Kuwahara et al (US Patent No. 6,804,216 B1), Ketchum et al (US Patent Publication No. 2004/0179627 A1), Sudo (US Patent No. 7,298,722 B2) and Ue et al (US Patent No. 6,611,676 B2) in combination fail to teach the claimed limitations of assigning different codes between the antennas in a base station by preferentially assigning, to the *i*th transmission antenna having a propagation path of a correlation value exceeding a predetermined threshold value, only spread codes orthogonal to the spread codes of the *j*th transmission antenna corresponding to the correlation value or spread codes having a small cross correlation value to spread codes of the *j*th transmission antenna corresponding to the correlation value. The references further fail to teach the claimed limitations of transmitting information from the transmission

Art Unit: 2617

antenna with an assigned spread code selected from the spread codes assigned to the transmission antenna.

Therefore, the prior art of record either singularly or in combination fails to teach the above claimed limitations for claims 2, 10, 13 and 16 and is therefore the reason for allowance. Claims 3-9 are dependent on claim 2; claims 11-12 are dependent on claim 10; claims 14-15 are dependent on claim 13, and claim 17 is dependent on claim 16; therefore, the dependent claims are allowed under the same reasons set forth above.

Conclusion

5. The prior art considered pertinent to applicant's disclosure is made of record and listed on form PTO-892.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TANGELA T. CHAMBERS whose telephone number is (571)270-3168. The examiner can normally be reached on Tuesday through Friday, 10:00am-6:30pm Eastern Time.
